

# Appointment Card features

The Appointment Card system prints clear, professional cards at the time the appointment is created either automatically or by the simple press of a key combination.

Printing Appointment Cards direct from the appointment module of the clinical system saves time, ensures the accuracy of information presented to the patient and subsequently reduces patient “did not shows” at the practice.

The following provides a list of key features.

<b>GENERAL</b>	<b>EMIS LV, PCS &amp; WEB</b>	<b>INPS Vision &amp; VES</b>	<b>TPP SystemOne</b>	<b>ISOFT, Premiere Synergy</b>	<b>ISOFT Ganymede</b>	<b>Frontdesk</b>
Prints Appointment Card slips	✓	✓	✓	✓	AVAILABLE SOON	✓
